

STRAKCHA
Scaffolding Systems

RINGLOCK SCAFFOLDING / ALLROUND SCAFFOLDING

The Ringlock Scaffolding is a modular system which can provide major savings in labor cost while meeting the demands for safety, ease of handling, big bearing capacity and reductions in maintenance.

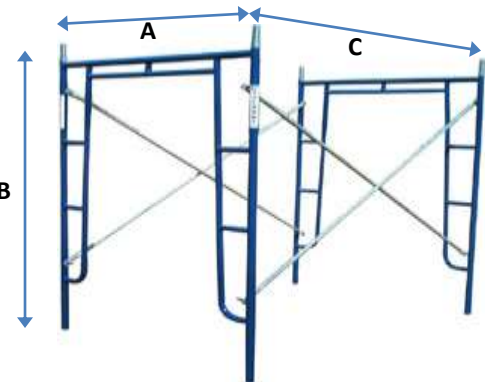

CUPLOCK SCAFFOLDING SYSTEM

The Cuplock Scaffolding is one of the world's most widely used systems. Its unique circular node point allows up to 4 components to be connected in one fastening action, meeting safety standards and ease of handling.

FRAME SCAFFOLDING SYSTEM

The Frame Scaffolding is the most simplest but most robust form of scaffolding system. Very quick to install and dismantle. It is mainly used for buildings up to 6m in height. Beyond 6m, the scaffolding must be anchored to the building for stability.

WALK THRU FRAMES SET

MASON FRAMES SET

Safal Group is one of the leading manufacturers of steel pipes and tubes in the East African region. A consistent commitment to quality and service has won it millions of customer to date. The latest addition to its offering is a branded range of scaffolding systems and products which are widely used in the construction industry. Strakcha Scaffolding Systems use a high frequency induction welding technique to form a strong continuous seam joint in the pipes. You can rely on Strakcha to meet your demands for safety and optimal service life.

VARIOUS APPLICATIONS OF SCAFFOLDING SYSTEM

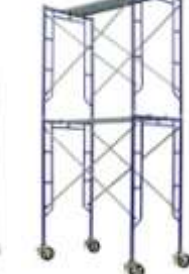

OUTDOOR APPLICATIONS

- Building Construction works – masonry/RCC/plastering
- Other Building works – External plumbing/painting/HVAC/electrification/facades etc.
- Roof installations
- Construction of infrastructure projects like bridges, power plants, Elevated water tanks, airports.
- Erection of billboards, street lights.

INDOOR APPLICATIONS (Stationary/Movable Platforms)

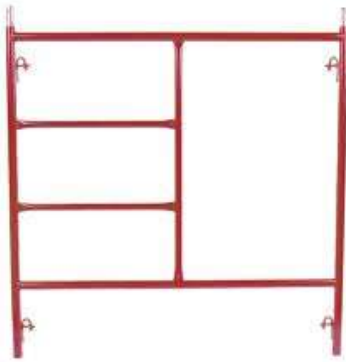

- Building works – Internal plastering, painting, plumbing, electrification etc.
- Temporary platforms – for events, functions etc.
- Interior decoration works

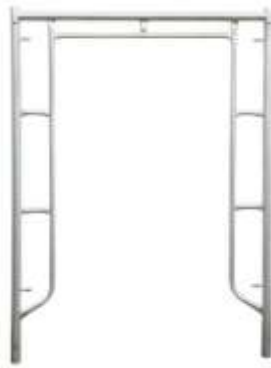

MAINTENANCE / REPAIR WORKS (Stationary/Movable Platforms)

- Cleaning of interiors of buildings, factories etc.
- Repairing of walls, roofs, factory sheds etc.
- Cleaning of glass paneled facades (curtain walls)
